

Winner of the 'MathWorks ICTIEE Award 2023'

**VNR Vignana Jyothi
Institute of
Engineering &
Technology,
Hyderabad**

- Multiple departments in the institute adopted various pedagogical approaches leveraging technology and implemented skill-based courses and certification for student empowerment based on the instructions from the Institute Academic Council
- Use of computational tools for most of the mathematics courses and enabling students to learn use of computational tools during the first year of engineering
- The institute has been proactive in adopting advanced workflow for teaching and research in Mechanical/Thermal Engineering including simulation technologies for automotive systems to name a few apart from core communication & electrical engineering
